Description

Focusing Your Church Board is for people serving on boards which are loaded with experts: successful

business people, doctors, lawyers, and real estate tycoons, but they lack the expertise for the very job they're doing. If you've spent any amount of time looking into the subject of board governance, you have come across Policy Governance — or what is often referred to as the Carver model...I'm often asked if Policy Governance can be applied effectively in the church context. When Policy Governance, the church, and the Bible are used in the same sentence, someone will rhetorically ask, "But isn't the church different?" This book is written from the perspective that the answer is yes.

– From *Focusing Your Church Board*

Ted Hull's years of experience in managing church boards and working with the Carver Policy Governance® Model

has made him the ideal candidate to help church boards get organized and discover how to optimize their roles to

benefit the church and society as a whole. With anecdotal evidence, solid examples, and helpful hints, Hull shows

how to smooth out the chaos that can often erupt in church boards, turning the board into a well-oiled machine

with drive and purpose.
